- St.Michaels School Redevelopment - \$ 1.85 Million.
- Heaton School Administration Building - \$ 1.15 Million.
- Canterbury Christian College Stage 2 & 3 – Value \$860,000.

- Lincoln University Landscape Architecture Building – Value \$ 5.8 Million

Higgs Construction Ltd completed the construction of the new triple award winning Landscape Architecture Building for Lincoln University in 2011. We were selected for this project due to our previous experience and the ability to work with the consultant team to produce efficiencies in the construction and design to assist with meeting their budget and time lines.

Gymnasiums

- Catholic Cathedral College Gymnasium – Value \$1.4 Million
- Villa Maria College Gymnasium – Value \$1.5 Million
- Westburn School Hall/Gymnasium – Value \$ 1.04 Million
- Lincoln University Gymnasium and Sports Facility – Value \$1.4 Million
- Medbury School Gymnasium and Cultural Centre – Value \$2.1 Million

- Lincoln High School Gymnasium – Value \$ 1.8 Million

Higgs Construction Ltd completed the design and build of the new International Size Netball Gymnasium for Lincoln High School in 2010, which sits beside the existing gymnasium.

We were selected for this project due to our previous experience in this type of construction and the alternative construction technique that was offered to assist the school with meeting their build budget.

- Westburn School Hall/Gymnasium – Value \$ 1,045,000.00

Higgs Construction designed and built the new Gymnasium/Hall for Westburn School. We were selected for this project due to our previous experience and the alternative construction technique that was offered to assist the school with meeting their budget. The project was completed in September 2011.
